This bulletin gives preliminary figures on the occupations of the gainfully occupied population on June 2, 1941, by sex, age, conjugal condition, industrial status, schooling, birthplace, period of immigration, and racial origin, for the province of Quebec. It forms part of a series of bulletins on occupations to be issued separately for each province.

Definition of Gainful Occupation.- A gainful occupation is defined in the census as one "by which the person who pursues it earns money or in which he assists in the production of marketable goods". Persons unemployed at the census date were asked to report the occupation in which last employed. Those who indicated that they had been unemployed for some lengthy period were further asked whether they were still seeking employment before being considered as gainfully occupied. Persons who reported that they were no longer following their former occupation because of old age or physical disability, and did not expect to return to it, were enumerated as "retired". As for young persons, only those not attending school and employed regularly in some gainful occupation were included among the gainfully occupied. Children of working age, that is, 14 years of age and over, assisting parents in the work of the farm or in some family business in a "no pay" capacity were reported as having a gainful occupation, but daughters helping in the domestic work of the home without pay were not included in the population gainfully occupied.

It should be mentioned that where a person customarily followed more than one occupation the enumerator recorded the occupation at which the person was employed most of the time during the year or from which he received the greater part of his annual earnings.

Occupational Classification.- The gainfully occupied are classified by occupation in the tables of this bulletin. The group titles in these tables are similar to those used in industry tables but the composition of the groups is different. For example, the group, "Manufacturing", in industry tables includes all persons employed by manufacturing firms, whether engaged in the processes of pro-

Ce bulletin contient les chiffres préliminaires sur les occupations de la population active le 2 juin 1941, selon le sexe, l'âge, l'état conjugal, le status industriel, les années d'école, le lieu de naissance, la période d'immigration et l'origine raciale, dans le Québec. Il fait partie d'une série de bulletins sur les occupations devant être publiés séparément pour chaque province.

Définition d'un emploi rémunéré.- Pour les fins du recensement, un emploi rémunéré est un emploi "par lequel une personne gagne de l'argent ou participe à la production des denrées commerciales". Les personnes en chômage à la date du recensement durent déclarer leur dernier emploi. Celles qui ont déclaré avoir été en chômage depuis assez longtemps ont dû dire, avant d'être énumérées comme occupant un emploi rémunéré, si elles étaient encore en quête d'emploi. Les personnes qui, à cause de vieillesse ou d'invalidité physique, ont déclaré ne plus occuper leur ancien emploi et n'avaient pas l'espoir d'y retourner ont été énumérées comme "retraitées". Dans le cas des jeunes personnes, seules celles qui ne fréquentaient pas l'école et avaient un emploi rémunéré régulier ont été énumérées comme occupant un emploi rémunéré. Les enfants en âge de travailler, c'est-à-dire de 14 ans et plus, qui aident, sans rémunération, leurs parents aux travaux de la ferme ou à quelque besogne familiale sont considérés comme ayant un emploi rémunéré; les filles, par contre, aidant sans rémunération aux travaux ménagers, n'ont pas été comprises dans la population active.

Il importe de souligner que, pour les personnes qui ont ordinairement plus d'une occupation, l'énumérateur a inscrit l'occupation à laquelle elles ont consacré le plus de temps dans l'année, ou celle qui leur a rapporté la plus grande partie de leur gain annuel.

Classification occupationnelle.- Dans les tableaux de ce bulletin, la population active est classée selon l'occupation. Les titres de groupes dans ces tableaux sont semblables à ceux des tableaux des industries mais la composition des groupes est différente. Par exemple, le groupe "Manufactures", dans les tableaux des industries, comprend toutes les personnes employées dans des établissements manufac-

duction, or in the sale or transport of the product, or in clerical or other occupations associated with the industry. On the other hand, in the occupation tables found in this bulletin only such persons as followed so-called "processing" occupations, that is, occupations in which they were directly engaged in the process of manufacture or repair, are included in the group "Manufacturing", and all persons following such occupations are classified in this group, irrespective of whether they were employed by manufacturing firms or by mining, construction, transportation, etc., companies at the time of the census. Similarly the groups, "Construction", "Transportation", for example, in industry tables include all persons employed in these industries, irrespective of the nature of their occupations, while the occupational groups, "Construction", "Transportation", appearing in the tables of this bulletin, comprise only those persons who were following construction trades and transport occupations, respectively, at the census date, regardless of the industries in which they were employed.

It might be mentioned that persons in clerical occupations have been assigned a separate place in the tables, while labourers in other than primary pursuits appear in a residuary group in these tables. Since the term "labourer", so reported, gives no indication of the type of work performed, it cannot be classified under any of the occupation groups shown in the tables. Even a knowledge of the industry in which employed does not supply the necessary information on the type of work performed by a person reported as a labourer, for a labourer in a steel mill, for example, might as well be working in a construction, transport, etc., type of occupation as in an occupation directly concerned with the process of manufacture.

Due to changes in the method of classification between 1931 and 1941 it is not possible to compare the figures in this bulletin for all the occupations shown in the tables with the 1931 occupation statistics given in Volume VII of the 1931 Census. Later it is expected that a bulletin will be published giving comparative data on occupations, possibly covering the census periods 1921 to 1941, with summary figures by occupation groups for the census periods 1901 to 1941.

Definition of Status.— In the census each gainfully occupied person is asked to report whether he is employed as an employer, on own account, as a wage or salaried worker, i.e., as a "wage-earner", or in a "non pay" capacity. These classes

turiers, soit dans la production même, la vente ou le transport du produit, soit dans des occupations de bureau ou autres connexes à l'industrie. D'autre part, dans les tableaux des occupations contenus dans ce bulletin, les seules personnes qui avaient des occupations dites de "transformation", c'est-à-dire celles qui étaient directement engagées dans les opérations mêmes de la fabrication ou de la réparation, sont comprises dans le groupe "Manufactures", et toutes les personnes se livrant à de telles occupations ont été classées dans ce groupe, indépendamment du fait qu'elles étaient employées dans des établissements manufacturiers, ou dans les mines, la construction, les transports, etc., lors du recensement. De même les groupes de la "Construction" et des "Transports", par exemple, dans les tableaux des industries, comprennent toutes les personnes travaillant dans ces industries, sans égard à la nature de leurs occupations, tandis que les groupes occupationnels de la "Construction" et des "Transports" dans le présent bulletin ne comprennent que les personnes qui avaient des emplois dans les métiers de la construction ou dans les transports respectivement à la date du recensement, indépendamment des industries dans lesquelles elles étaient engagées.

Il convient peut-être de mentionner ici que les personnes ayant des occupations de bureau tiennent une place séparée dans les tableaux, tandis que les manoeuvres dans des entreprises autres que primaires paraissent dans un groupe résiduel de ces tableaux. Comme le terme "manoeuvre" tel que déclaré, ne donne aucune indication du genre de travail accompli, il ne peut être classé sous aucun des groupes d'occupations des tableaux. La connaissance de l'industrie qui l'emploie ne fournit pas non plus les renseignements nécessaires sur le genre de travail accompli par une personne qui se déclare "manoeuvre", parce qu'un manoeuvre dans une aciérie, par exemple, peut être employé dans la construction, les transports, etc. aussi bien qu'à une occupation liée directement aux opérations propres de la fabrication.

Le changement apporté à la méthode de classement entre 1931 et 1941 ne permet pas la comparaison des données du présent bulletin pour toutes les occupations indiquées dans les statistiques des occupations de 1931 au volume VII du Recensement de 1931. Un bulletin sera sans doute publié ultérieurement qui contiendra des données comparées sur les occupations et embrassera probablement les périodes de recensement de 1921 à 1941, donnant en même temps un résumé statistique par groupes d'occupations pour les périodes de recensement de 1901 à 1941.

Définition de status.— Lors du recensement, toute personne occupant un emploi rémunéré est priée de dire si elle est employée comme employeur, à son propre compte, à gages ou à salaire, i.e., "employé à gages", ou "sans rémunération". Ces

of the gainfully occupied are defined as follows:

- (a) employers, i.e., persons who operate their own business and employ others to assist them;
- (b) own accounts, i.e., persons who carry on their business without the assistance of employees;
- (c) wage-earners, who consist of employees working on a salary or wage basis, including commission and piece rate forms of payment; and
- (d) "no pays", who are mainly family workers on farms and in stores receiving no fixed money payment but whose work contributes to the income of the family business.

Persons in Institutions.— Persons in institutions at the date of the census with gainful occupations prior to commitment are not included in the occupation statistics published herein.

Persons on Active Service at the Census Date.— The total gainfully occupied males in Column 1 of Table 1 represents the civilian population in gainful occupations on June 2, 1941, plus all persons on Active Service at that date. Males on Active Service at the date of the census who were gainfully occupied prior to enlistment are distributed according to their civilian occupations in Column 1 of this Table. A comparison of the total number of males in Column 1 and Column 2 for each occupation gives a measure of the rate of withdrawal, up to the date of the census, of males from civilian occupations for service in the Armed Forces. The balance not gainfully occupied previous to enlistment are shown in footnote (1) on page 4 of this bulletin. Column 2 of Table 1 shows the total number of males, not including those on Active Service, in each occupation at the census date, with classifications by age, conjugal condition, etc., in the remaining columns of the table. In Tables 2, 3 and 4 the total gainfully occupied, including and not including persons on Active Service, is shown at the beginning of each table. In these tables the classifications by occupation do not include persons on Active Service.

catégories de personnes actives sont ainsi définies:

- (a) employeurs, i.e., les personnes qui exploitent leur propre commerce et en emploient d'autres pour les aider;
- (b) à leur propre compte, i.e., les personnes qui exploitent leur commerce sans l'aide d'employés;
- (c) employés à gages, comprennent des employés travaillant à salaire ou à gages, y compris les méthodes de paiement à commission et à la pièce; et
- (d) "sans rémunération" surtout des membres de la famille travaillant sur la ferme ou au magasin et qui ne reçoivent pas de paiement fixe en argent mais dont le travail contribue au revenu de l'industrie familial.

Pensionnaires d'institutions.— Les personnes qui, à la date du recensement, habitaient des institutions et avaient un emploi rémunéré avant d'y entrer ne sont pas comprises dans les statistiques des occupations publiées ci-contre.

Personnes en service actif lors du recensement.— Le total des hommes ayant un emploi rémunéré indiqué dans la colonne 1 du tableau 1 représente la population civile active le 2 juin 1941 ainsi que toutes les personnes en service actif à cette date. Les hommes en service actif à la date du recensement et qui, avant leur enrôlement, avaient un emploi rémunéré, sont répartis, dans la colonne 1 de ce tableau, selon leurs occupations civiles. Une comparaison du nombre d'hommes dans la colonne 1 et dans la colonne 2 pour chaque occupation donne une mesure du taux auquel les hommes, jusqu'à la date du recensement, ont passé des occupations civiles au service dans les forces armées. Les autres qui n'avaient pas d'emploi rémunéré avant leur enrôlement sont indiqués au renvoi (1) de la page 5 de ce bulletin. La colonne 2 du tableau 1 donne le nombre d'hommes, à l'exclusion de ceux qui étaient en service actif, dans chaque occupation à la date du recensement; leur âge, leur état conjugal, etc. sont donnés dans les autres colonnes du tableau. Au commencement de chacun des tableaux 2, 3 et 4, le nombre est donné de toutes les personnes occupant des emplois rémunérés, y comprises ou non comprises les personnes en service actif. Dans ces tableaux, les classifications selon l'occupation ne comprennent pas les personnes en service actif.

(1) The 37,919 males on Active Service on June 2, 1941, with a gainful occupation prior to enlistment are distributed according to civilian occupation in this column. The number of these in each occupation may be obtained by subtracting the figure in Column 2 from the total given in Column 1. The number of males on Active Service on June 2, 1941, not gainfully occupied previous to enlistment is shown below. See also Introduction, page 3.

Total males on Active Service on June 2, 1941 48,842
 Number with a gainful occupation prior to enlistment 37,919
 Number not gainfully occupied prior to enlistment 10,923

(2) Includes conjugal condition and years of schooling "Not stated". (3) S. = Single; M. = Married; W. = Widowed; D.&S. = Divorced and permanently separated. (4) E. = Employer; O.A. = Own account; W. = Wage-earner; N.P. = No pay. (5) Includes 10,923 males on Active Service on June 2, 1941, not gainfully occupied prior to enlistment. (6) N.i.f. = Not in factory. (7) N.e.s. = Not elsewhere specified.

Note: The classification of the gainfully occupied in each occupation, by age, conjugal condition, etc., as shown in this table, does not include persons on Active Service with a gainful occupation prior to enlistment.

Occupations with less than 5 persons are not listed but the number of persons in these occupations is included in the totals of the groups and sub-groups under which such occupations would be found in the occupational classification.
